

Feedback...

Hi Lorraine,

Thank you, again, for the great job you did on the feature article in the summer issue of 'Women with Vision'. I can't express how pleased I am with the end result. You captured perfectly the essence of the lifestyle choice that I made upon turning 50. I was delighted by the sincere tone of the article.

I was worried that I would feel 'exposed' to have my thoughts, feelings and decisions recorded for all to see, but you treated my information with such sensitivity and warmth that I am proud to show the article to family, friends, fellow pilots and co-workers. Everyone who has read the article has commented on how well written it was. Many even recounted to me a particular part of the article that they liked. I heard the word 'inspiring' more than once! And, yes, Jeff is so proud!

I have a friend (a fellow pilot) who is working far too hard right now at her day job. I will see her on the weekend and I will give her a copy of the magazine. Hopefully, it will inspire her to realize that life is short, and have her slow down and create her own 'Bucket List'!

Great job, Lorraine!
Lesley Page

VISIONS VIEWS & INSIGHTS

Owen Sound Women with Vision Chapter

We acknowledge and sincerely appreciate the thoughtfulness of Dawn Allen Principal, parents and students for allowing us to showcase the pictures of the Barrie Montessori School in the summer issue of Women with Vision.

Lorraine,
I read the latest issue of "Women in Vision!", summer issue, from cover to cover last night. Loved it - absolutely loved it. You are a beautiful writer. The magazine is top quality. The ads are clearly carefully selected and represent businesses developed and executed from the heart.

Your enthusiasm for the unexpected flight (summer issue feature article), that you got to take, really came through.

You do a wonderful service to the world, Lorraine.
Thank you for being you.

Meredith Deasley

Author, The Resourceful Mother

Dear Lorraine
Women with Vision magazine is aptly named! Lorraine you make the reader realize that we all can "do and not just be"! You, Lorraine are like a well cut faceted diamond. You have many amazing gifts which you so willingly share.

In admiration.
Monica Kristen
